

Sunny Saini

Full Stack Developer · MERN Stack · Open to Full-Time Roles

+91 7986677845 · sunnysaini.ldh@gmail.com · github.com/Sunnysaini2003 · [LinkedIn](#) · [Portfolio](#) · Ludhiana, Punjab

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer (MERN) with 2+ years of experience building scalable REST APIs, secure authentication systems, and production-grade applications. Proven track record of owning the full SDLC from requirements gathering to final deployment for 10+ client projects. Adept at creating optimized backend architecture and performance-focused user interfaces to drive business impact.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Reusable Component Architecture, Tailwind CSS, Bootstrap **Backend:** Node.js, Express.js, REST API Design, JWT Auth, RBAC, Session Management

Databases: MongoDB, MySQL, Query Optimization **Tools:** Git, GitHub, Postman, VS Code, WordPress **Concepts:** MVC, Responsive Design, SDLC, Full Stack Architecture

EXPERIENCE

Junior Web Developer · Devologix IT Solutions

Aug 2025 – Present · Punjab, India

Promoted to full-time after executing a high-performing internship framework.

- Built secure, end-to-end full-stack applications with **Node.js, Express.js, React.js, and MySQL** across **3+ core production modules**.
- Architected a custom **MERN-based CMS from scratch**, empowering 5+ non-technical team members to manage asset configurations independently and eliminating developer manual overhead by 100%.
- Designed robust **JWT-based REST APIs** handling role-based access control (RBAC) and integrated a reusable UI component library that reduced code duplication across applications by 25%.
- Optimized structured MySQL database schemas and indexing strategies, dropping API query latency rates by 35% under load.

Web Developer Intern · Devologix IT Solutions

May 2024 – Aug 2025 · Punjab, India

- Built operational mockups and full-stack features using Express.js and MySQL, achieving cross-browser compatibility across internal dashboard layouts.
- Assisted engineering teams in integrating RESTful endpoints, validating data inputs, and standardizing frontend components in React.

Freelance Full Stack Developer · Self-Employed

Jul 2024 – Present · Remote

- Engineered and launched **10+ custom client websites** from concept to production using WordPress, React, and custom Tailwind architectures; integrated secure authentication infrastructure.
- Oversaw end-to-end client engagement and complete SDLC pipelines, increasing user experience scores and site performance by an average of 40% across localized client domains.

PROJECTS

FinTrack — Personal Finance & Expense Management

Node.js · Express.js · React · MySQL · MongoDB ·

Tailwind

- Full-stack expense management platform featuring nested transaction tracking analytics, multi-currency charts, and cross-platform authentication architectures.
- Configured unified relational and non-relational database storage protocols using MySQL and MongoDB to separate logging from financial aggregates.
- Code: github.com/Sunnysaini2003/fintrack · Live Demo: fintrack.demo

WorkSync — Project Management System

Node.js · Express.js · MySQL · EJS · Bootstrap

- Completed an end-to-end enterprise project workflow platform enabling interactive task assignment matrices, automatic timeline metrics tracking, and granular team management filters.
- Implemented granular server-side session management alongside robust role-based routing controls to isolate dashboard analytics parameters.
- Code: github.com/Sunnysaini2003/worksync · Live Demo: worksync.demo

EDUCATION

B.Tech — Information Technology · Guru Nanak Dev Engineering College, Ludhiana

2022 – 2025 · CGPA: 7.05

Diploma — Computer Science Engineering · Guru Nanak Dev Polytechnic College

2019 – 2022 · 70%

CERTIFICATIONS

React Developer — Infosys Springboard (2024) · **MERN Stack Internship** — Devologix (2024) · **Web Dev Training** — GNDEC STEP (2023) · **Java Training** — GNDEC STEP (2023)
