SUNNY SAINI

Full Stack Developer | MERN Stack | React.js, TypeScript & Node.js

Ludhiana, Punjab, India (**Open to Relocate: Pan-India / Remote**) | +91 7986677845 | sunnysaini.ldh@gmail.com | github.com/Sunnysaini2003 | linkedin.com/in/sunny-saini-2003s24

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience architecting and shipping production MERN applications, RESTful APIs, and custom CMS platforms. Proven expertise in React.js component architecture, TypeScript, Node.js, Express.js, MySQL query optimization, and secure authentication (JWT, RBAC). Delivered 10+ end-to-end client web applications and enterprise modules with measurable gains in API latency, developer velocity, and system scalability.

TECHNICAL SKILLS

Frontend Development: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, Atomic Component Architecture, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful API Design, Socket.io (WebSockets), JWT Authentication, Role-Based Access Control (RBAC), Session Management, bcrypt, EJS

Databases & ORM/ODM: MySQL (Indexing, Query Optimization, Relational Schema Design), MongoDB, Mongoose, NoSQL Data Modeling

Tools, DevOps & Engineering: Git, GitHub, Postman, Vite, VS Code, Linux, WordPress, MVC Architecture, Full-Stack SDLC, Agile/Scrum

WORK EXPERIENCE

Full Stack Web Developer (Junior) | **Devologix IT Solutions** Aug 2025 – Present | Ludhiana, Punjab

- Engineered **3+ full-stack production CMS modules** using React.js, Express.js REST APIs, and JWT authentication, empowering non-technical users to manage **200+ live content pieces**.
- Architected a custom enterprise CMS platform from scratch with Role-Based Access Control (RBAC), enabling **50+ team members** to publish digital assets independently without developer intervention.
- Developed a modular library of **20+ reusable React components** following atomic design principles, accelerating frontend feature delivery across the engineering team by **40%**.
- Optimized complex MySQL queries and database indexing strategies for data-heavy dashboard views, cutting API response latency by **83% (from 2.1s to 350ms)**.

Web Developer Intern & Freelancer | **Devologix IT Solutions** Jul 2024 – Aug 2025 | Ludhiana, Punjab

- Spearheaded the end-to-end SDLC for **10+ full-stack client websites** using React.js, Node.js, and WordPress, achieving a **98% on-time delivery rate** with zero critical post-launch defects.
- Customized and deployed **5+ CMS-driven client platforms** with responsive UI architectures and Express.js/MySQL backends, improving page load speeds by **25%** and achieving **90%+ client satisfaction**.
- Implemented multi-user authentication pipelines across **8+ production applications** utilizing JWT tokens, bcrypt password hashing, and role-based session management with **zero security incidents**.

PROJECTS

QuickServe – QR Ordering & POS Platform | *React.js, TypeScript, Node.js, Express.js, MySQL, Socket.io* github.com/Sunnysaini2003/QuickServe

- Built a real-time restaurant POS platform using Socket.io to synchronize live order creation and kitchen status updates across customer, staff, and admin dashboards with **sub-second latency**.
- Modeled a normalized multi-tenant MySQL schema enforcing JWT-based RBAC across **5 user roles** paired with a mobile-first React and TypeScript storefront.

FinTrack – Finance & Expense Management | *Node.js, Express.js, React.js, MySQL, MongoDB, Tailwind CSS* github.com/Sunnysaini2003/fintrack

- Formulated a dual-database financial platform combining MySQL for ACID-compliant transactions and MongoDB for analytics logging, supporting **100+ concurrent transactions per minute**.
- Designed secure RESTful APIs with permission-based authorization and RBAC across **3+ user tiers**, powering interactive multi-axis expense visualization dashboards.

WorkSync – Project Management Platform | *Node.js, Express.js, MySQL, EJS, Bootstrap* github.com/Sunnysaini2003/worksync

- Delivered an end-to-end project management system supporting task matrices, team allocation, and milestone tracking in production via JWT authentication and role-based routing middleware.
- Created interactive project tracking dashboards using EJS templates and Bootstrap, achieving **sub-second UI updates** during live task assignment workflows.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology | Guru Nanak Dev Engineering College, Ludhiana 2022 – 2025 | **CGPA: 7.05**

Diploma in Computer Science Engineering | Guru Nanak Dev Polytechnic College, Ludhiana 2019 – 2022 | **Score: 70%**

CERTIFICATIONS

React Developer Certification (Infosys Springboard, 2024) | **MERN Stack Internship** (Devologix IT Solutions, 2024) | **Web Development Training** (GNDEC STEP, 2023)
